

兒童正常肌肉骨骼神經超音波 (膝蓋)

Pediatric Musculoskeletal Ultrasound Checklist – Knee

兒童膝關節之超音波解剖構造

台灣第二屆兒童風濕學校 | 兒童肌肉骨骼系統超音波檢查工作坊 – 2026

講者：曾吉騰 醫師; 助教：黃柏翰、林芷儀

超音波分站學習清單

Knee – Anterior			
Organ/Landmark	Check it	Probe Placement Mark	Note
Distal femur (diaphysis / epiphysis / metaphysis)			Anterior longitudinal view; knee slightly flexed
Proximal tibia (diaphysis / epiphysis / metaphysis)			Anterior longitudinal view
Suprapatellar pouch			Suprapatellar longitudinal view; knee flexed 30°
Quadriceps tendon			Suprapatellar longitudinal & transverse view
Femoral intercondylar cartilage			Suprapatellar transverse view; knee maximally flexed
Patella			Anterior longitudinal & transverse view
Growth Plate/Metaphysis			
Ossification Center/ Patella Cartilage			
Vascular Channels in Growing Cartilage			
Patellar tendon / apophyseal cartilage			Anterior longitudinal view over patellar tendon
Medial recess – medial meniscus / MCL			Medial coronal longitudinal view
Lateral recess – lateral meniscus / LCL			Lateral coronal longitudinal view

	Knee – Anterior		
Organ/Landmark	Check it	Probe Placement Mark	Note
Manipulation – Sliding; Tilting; Rotation			

	Knee – Posterior		
Organ/Landmark	Check it	Probe Placement Mark	Note
Gastrocnemius–semimembranosus bursa			Posteromedial transverse view; assess Baker's cyst
Posterior cruciate ligament (PCL)			Posterior longitudinal view over popliteal fossa
Manipulation – Sliding; Tilting; Compression			
Knobology			Gain/Depth/Power Doppler
